This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Mr. President:

I am directed by the House to inform your Honorable Body that the following resolution was introduced by Macaulay, of Silver Bow, and passed by the House:

Whereas, there has been a protracted shortage of coal in the State of Montana, due to causes not sufficiently explained; and

Whereas, there has been a raise in the price of coal to the consumer, of from twenty-five to fifty per cent above last years price; and

Whereas, the individual domestic consumer of coal has been able to secure only a very limited supply of coal at one time, while large quantities of coal have been steadily supplied to the larger industrial concerns in this State;

Therefore, be it Resolved, that the Speaker appoint a Committee of Representatives of this House, whose duty it shall be to thoroughly investigate the coal shortage, and the unprecedented raise in the price of coal, together with the causes, which the small consumer has been confined in his purchase to limited quantities of coal, while mines, smelters, railroads, and other large concerns have been fully supplied, and report to this house, the report to be made the basis of needful legislation, in case it be shown that the domestic consumer of coal has been made the victim of a coal combine or conspiracy designed to subject him to unjust discrimination and to compel him to pay extortionate prices for coal.

The following committee was appointed by the Speaker:

Allen, Macaulay and O'Connor.

Respectfully,
NATHAN GODFREY, Chief Clerk.

DONLAN, Chairman.

Report adopted and Bills referred to General File.

Following communications from His Excellency the Governor received and read:

Executive Office, Helena, Montana, March 4th, 1907.

To the President of the Senate, Senate Chamber, Helena, Montana:

I herewith return Senate Bill No. 35, entitled "An Act to amend Section 1270, 1355, 1360 1408, 1410, 1412, 1413 and 1414 of the Political Code of the State of Montana, and Sections 1354 and 1361 of the same Code, as amended by House Bill No. 59 of the Laws of 1901, approved March 7, 1901, relating to ballots, voting and election returns, and providing further for the voter while preparing his ballot and casting the same," without my approval and with my objections thereto.

The Bill is meritorious, in my opinion in so far as it attempts to further safeguard the ballot against fraud, and the possibilities of what is known as the "endless chain", and to that extent might be commendable as a separate and independent measure: but it should not be regarded as of such importance as to engraft upon the law a narrow and unjustifiable restraint upon a custom which has long existed in this State by which sympathetic parties have fused upon certain candidates.

A similar Bill was passed by the Ninth Session, and failed for want of my approval. One of the objections then urged and now renewed was as follows:

"While the Bill might tend to prevent a recognition of mushroom parties believed by many to have no greater motive behind them for existing than a division of offices without regard to principle advocated, still, if this be true in some instances, yet in this day and generation, where there seems to be a well devised and wide spread effort to enlarge rather than curtail the rights of people, it is better to submit to this imperfection, if imperfection it be, than to fly to others which might be worse by adopting a new method at variance and out of harmony with the spirit of the times."

J. K. TOOLE, Governor.

The chair announced that the vote would recur upon the question "Shall the Bill become a Law, notwithstanding the objections of the Governor?"

Albright moved a call of the Senate.

Motion carried.

The Secretary thereupon called the roll of Senators.

Present: Albright, Annin, Bielenberg, Cardwell, Cowgill, Donlan, Edwards, Everett, Fairbanks, Glidden, Harper, Haviland, Long, Martien, Metcalf, Miles, Muffly, McCarthy, McCone, McLean, Rae, Romney, Sanders, Tooley, Truscott, White.—25.

Absent: McDonnell.—1.

The Seargeant at Arms was directed to bring McDonnell to the bar of the Senate.

McDonnell appeared and answered roll call.

Further proceedings of the call were dispensed with, all Senators being present.

The vote was then taken upon the question: Shall Senate Bill No. 35 be passed, notwithstanding the Governor's objections?

Roll call resulted as follows:

Ayes: Albright, Annin, Bielenberg, Cowgill, Donlan, Edwards, Everett, Fairbanks, Harper, Long, Metcalf, Miles, Muffly, McCone, McDonnell, McLean, Rae, Sanders, Tooley, White.—20.

Noes: Cardwell, Glidden, Haviland, Martien, McCarthy, Romney, Truscott.—7.

The Secretary was instructed to transmit S. B. No. 35 to the House with the Governor's message, informing the House of the action of the Senate on said Bill. Senate by a more than two-thirds vote having failed to sustain the objections of the Governor.

Executive Office, Helena, Montana, March 4th, 1907.

To the President of the Senate, Senate Chamber, Helena, Montana:

I herewith return Senate Bill No. 42, "An Act entitled An Act providing that upon sale of all lands belonging to the State of Montana, minerals and coal shall be reserved in the patent," without my approval and with my objections thereto.

As indicated by the title, the purpose of the bill is to reserve to the State upon sale of lands the minerals and gold contained in the land. It will be observed that the term, "minerals and coal contained in the land, does not apply simply to minerals and coal known to be contained in such lands, at the time of the sale or issuance of the patent, but applies to all minerals and coal contained therein, whether known or unknown.

In my opinion this is placing an unnecessary embargo upon the title to lands sold by the State, and one which will certainly tend to depreciate their value. Reservations of this character are embodied in conveyances made by the Northern Pacific Railroad to lands granted it by Congress, but these lands in the main have been sold at a dollar and a dollar and a quarter an acre, sometimes at a much less price, while State lands cannot be sold for less than ten dollars an acre.

It is my opinion as well as that of the State Board of Land Commissioners, that such reservations in the State patents would have the effect of producing a leasing system of State lands, rather than a sale thereof, a policy which ought not to be determined in a new country by any hard and fast rule of the law. Besides it has been the general policy of the Government of the United States, as I believe it ought to be of the State of Montana, to encourage the exploration and development of our mineral

resources. If a patent to State lands contains a reservation to the State of all the unknown minerals and coal contained therein, it is altogether certain that the purchaser of such lands will not undertake to explore or develop the same, unless it will result in no benefit to such purchaser and might result in a great detriment to him, since the bill further provides in Section 3, that any patent for lands so "sold shall also contain a reservation to the State and its duly authorized representatives of a suitable right of way to be by the State determined for the proper exploration and development of any mine or mines discovered in such lands and for the proper extraction and removal of minerals or coal therefrom.

It is believed that such an easement and servitude as this Section imposes upon the land where minerals contained therein are unknown at the time of the patent would greatly lessen the value of the grant to the State from the Federal Government by interfering with the sale and disposition thereof.

It will be noted also that mineral land as now construed in sufficiently comprehensive to include limestone and other stone quarries.

I think upon the whole, with the well known disposition of the State Board of Land Commissioners to conserve the interest of the State and to protect and preserve its minerals and coal wherever known, that this object of reservations may well be left to its judgment and discretion.

J. K. TOOLE, Governor.

The question was asked, "Shall S. B. No. 42 be passed notwithstanding the Governor's objections?

Roll was called and the veto of the Governor sustained by the following vote:

Ayes: None.

Noes: Albright, Annin, Bielenberg, Cardwell, Cowgill, Donlan, Edwards, Fairbanks, Glidden, Harper, Haviland, Long, Martien, Metcalf, Miles. Muffly. McCarthy, McCone, McDonnell, McLean, Rae, Romney, Sanders, Tooley, Truscott, White.—26.

Following communication from His Excellency the Governor was received and read:

Executive Office, Helena, Montana, March 7th, 1907.

To the President of the Senate, Senate Chamber, Helena, Montana.

I herewith return Senate Bill No. 65, "An Act entitled 'An Act to provide for the apportionment of membership and representation of the several counties of Montna, in the House of Representatives of Legislative Assemblies of Montana, and to fix the number of members thereof," without my approval and with my objections thereto.

Section 2 of Article 6 of the Constitution is as follows:

Section 3. The Legislative Assembly shall provide by law for an enumeration of the inhabitants of the State in the year 1895 and every tenth year thereafter; and at the Session next following such enumeration, and also at the session next following an enumeration made by the authority of the United States, shall revise and adjust the apportionment for Representatives on the basis of such enumeration according to ratios to be fixed by law."

It has been contended that, since the Constitution has fixed a time once in ten years, when an enumeration of the inhabitants of the State shall be had and apportionment of representatives made by law based on such enumeration, there is thereby created a limitation upon the powers of the Legislature to make such an apportionment at any other time."

But whether this view of the law is right or wrong, no one at all familiar with the population of the several counties in this state will seriously urge that the apportionment made by this bill is anything like fair and just on the basis of the present population.

I deem it unnecessary to descend into specifications of inqualities in each particular instance, but the growth of the state has been so pronounced since the last census as to make the apportionment fixed by this Bill conspicuously unequal and unjust.

It is only three years until Federal Census will be taken. In my opinion it is far better to await that time than to make a guess as to our population resulting in such invidious distinctions.

It is admitted that the present Representation is far from right, but it has not been observed that those Counties whose Representation is smaller than it ought to be suffered in the quality of their Representatives of the character of legislation upon which their personality has been impressed.

It is my hope therefore, that the Subject of apportionment will be deferred until after the next Census, when all the necessary information for a just and correct apportionment will be available.

J. K. TOOLE, Governor.

The question was asked, "Shall S. B. No. 65 become a law notwithstanding the Governor's objections?

Roll was called and the veto of the Governor sustained by the following vote:

Ayes: Annin, Everett, Glidden, Long, McCarthy, Sanders, White.—7.
